Through the Rental Housing Research we would like to
discuss the **external (social and economic)**
considerations of the **individual home owners** who
provide the supply of these rental houses incrementally in
the **absence of a formal designer.**

What factors influence landlords' **renting behaviour**?

What are the **types** and **form** of the rental housing being produced in the cities?

03

ABSENCE OF FORMAL DESIGNER

The Rental housing emerges in the absence of the formal designer based on the situational constraints and local knowledge and trends of the neighbourhood

04

OWNER -TENANT RELATIONS

The form is an imprint of the social relationships between the tenants and the owners. It is a codified manifestation of certain codes of conduct.

What makes a house?

A House is an outcome of several
External (social and economic) constraints
that are **outside the bounds of FORMAL**
design.
